

YOUTH 2 YOUTH

AWARENESS. ACTION. ACCOUNTABILITY.

I pledge to support Y2Y on my campus and in my community. My fellow students, staff, friends and family can count on me to do the following:

- Attend regular Y2Y meetings where I can talk openly with fellow students about important issues facing our community. This can include mental health issues, drug and addiction problems, violence and aggression, and best practices for self-care and wellness. I promise to do my part to learn, listen and help problem-solve.
- Give my friends the Y2Y-specific tools and information they need to be AWARE, take ACTION and hold each other ACCOUNTABLE. Together we can make a difference and create a positive campus culture.
- Spread Y2Y messages by sharing my story with others and listening to my fellow students when they need support.
